AI Intel

Claude Code March 2026: Voice Mode, /loop, 1M Context, Opus 4.6

RELEASEBOT / PASQUALE PILLITTERI

Major update wave: push-to-talk voice mode, /loop for autonomous iteration, 1M token context window, and MCP elicitation (servers can request structured input during tasks). The MCP elicitation feature could power interactive client onboarding flows in your chatbot product.

AI Website Builders Accelerating SMB Adoption in 2026

VEZA DIGITAL / CYBERNEWS

AI builders like Framer and Wix AI are pushing "beyond templates" -- but still can't match custom design and local business understanding. This validates OphidianAI's positioning: custom-built sites with AI efficiency, not cookie-cutter AI output. Use this angle in outreach messaging.
